

**REPORT**  
**on the work of the Compliance - Service**  
**for the first six months of 2023y.**

According to the staff schedule of the Joint Stock Company “Uzmetkombinat” (hereinafter - the Company), **5 staff** units have been allocated to the Compliance - Service under the Supervisory Board, of which **3 are** filled by employees. At present, the recruitment process for **2 vacant** positions is in progress.

The work plan of the Compliance - Service for 2023 consisting of **15 items** was approved by the Supervisory Board of the Company on December 14, 2022. Fulfillment of **6 items** of the work plan is fully ensured, the remaining **9 items** are under control.

On April 11, 2023, the Program of Measures consisting of **9 items** was approved, aimed at improving the Company's activities in the direction of ensuring transparency. **2 items** of the program have been fully implemented. Work is underway on **7 items** of the program.

On May 24, 2023 was approved the program of measures to reduce the risks of violation of competition law requirements in the Community system of **7 points**. **2 items** of the program have been fully implemented. Work is underway on **5 items** of the program.

At the same time, an appeal of the Company’s General Director - Chairman of the Council to employees - employees and the public on anti-corruption issues was developed and communicated to the employees.

Sections “Anti – corruption” and “Open Information” were introduced on the Company's official website [www.uzbeksteel.uz](http://www.uzbeksteel.uz). These sections contain internal documents, information planned for publication, appropriate (hotline and e-mail) communication channels for sending appeals, social videos and information on responsible Compliance - officers, and constant monitoring of the updating of this information.

For the expired period of the current year, the Compliance - Service received **8 executive** documents, the execution of all documents was ensured.

For the first half of 2023 Compliance - service has conducted an assessment of **142 functions** of **25 structural-organizational** units and departments of the executive apparatus of the Combine on the basis of the Methodology for assessing corruption risks, registered by the Ministry of Justice of the Republic of Uzbekistan on August 31, 2022 for № 3383 (identification and assessment of corruption risks).

On July 17, 2023 the Program (Roadmap) of **136 points** on prevention of corruption risks was approved.

The Compliance - Service developed and implemented a risk map of production, financial, economic and other activities of Uzmetkombinat JSC, which included a description of **229 risks** in such groups as strategic, operational, financial and compliance risks (compliance risks).

In addition, for 6 months of the current year, **213 candidates** hired on a competitive basis were checked.

In accordance with the recommendations developed by the Compliance Service, the HR Department supervised the completion of annual declarations (including in case of transfer to another position) on conflict of interest by employees of all structural and territorial subdivisions of the Works. At the initiative and recommendation of the Compliance - Service, the HR Department introduced anti-corruption clauses into labor contracts.

### *Training seminars*

In the reporting period Compliance - Service organized and conducted **5 general** and special training seminars on risk management and anti-corruption issues with participation of foreign expert with involvement of managers and leading specialists of structural and regional divisions of "Uzmetkombinat" JSC.

On the initiative of Compliance - Service **21 risk-coordinators** were appointed from each structural subdivision and production shop. During the special training seminars the main emphasis was made on training of the appointed risk-coordinators in terms of identification and specific risks in production, financial and economic and other activities of "Uzmetkombinat" JSC and development of appropriate recommendations for their reduction and elimination.

Compliance - service has developed "Handbook on anti-corruption compliance system of Uzmetkombinat JSC", special educational programs of advanced training "Obligations of structural and territorial subdivisions in prevention of Corruption and conflict of interests and other offences" and "Organization of anti-corruption system and prevention of corruption".

### *Awareness-raising and advocacy activities*

In order to carry out a wide explanatory work among the employees of "Uzmetkombinat" JSC in the part of anti-corruption policy and measures on settlement of conflict of interests conducted at the Combine by Compliance - Service **5 audio spots** and **2 video** spots on the relevant topics were prepared and placed on the website and official Telegram channel of the Company. Within the framework of the mentioned thematic areas, **3 propaganda** materials were developed, which were brought to the attention of employees, partners and counterparties on the official website of the Company and the official Telegram channel.

### *Employees' appeals and organization of "trust communication channels" work*

**UMK\_Anticorbot** was launched in the social network Telegram in order to facilitate communication of the Company's employees about possible corruption and conflict of interest in subdivisions, and a video on how to use this application was prepared and demonstrated. UMK\_Anticorbot has **6 sections**, among which are:

- Bribery and corruption;
- Accounting violations;
- Unequal employment and labor conditions;
- Threats to health, safety and the environment;
- Information leakage/destruction;
- Other.
